

"Donley Building Services do an excellent job of exceeding our janitorial care expectations within our five SSM St. Joseph Medical Buildings. They have a good working relationship with our Physician Tenants and the Lillibridge staff. We have found Donley Building Services to be a very conscientious and ethical company. Their family run business is always professional, provides great customer service, and is always willing to work with the Property Management staff to solve any issues that arise."

Sandra Stewart-Rollins
Property Manager
